

Advisory Councils

AUG 22, 2022

Epic Advisory Councils held at UGM are intended to provide focused learning and discussion time for specific roles. These customer-only events foster constructive, progressive dialogue between Epic and the user community.

Directors and Associates Council (DAC)

Discuss healthcare issues and opportunities with industry peers and gain new perspectives on common challenges. Epic customers share their successes and lessons learned with regard to a variety of EHR-related projects. Topics include effective governance strategies, post-live continuous improvement, managing operational growth, and EHR benefits realization.

Designed for Directors, AVPs, Associate/Assistant CIOs, and COOs.

Financial Leaders Advisory Council (FLAC)

This council is designed for financial leaders looking to learn new ways to improve revenue cycle performance. Attendees have an opportunity to hear from both Epic and their peers on best practices, network, and provide feedback on Epic development direction.

Designed for Resolute Hospital Billing, Resolute Professional Billing, and Patient Access executives and directors.

Nursing Advisory Council (NAC)

Join your fellow nursing leaders to exchange ideas about using Epic to promote quality, reduce variation, and increase nursing satisfaction with the EHR. Presentations, led by your peers and Epic, include topics such as innovation, care across the continuum, leadership, change management, and the role of informatics.

Designed for EpicCare Clinical System (Inpatient, Ambulatory, ASAP) nurses, executives, and directors.

Health Plans & Managed Care Advisory Council (HPMC)

HPMC provides an opportunity to connect with organizations using the Epic platform to manage risk, as well as those interested in this pursuit. Attendees benefit from others who share how they successfully use the system, regardless of risk model.

Designed for Tapestry, Cheers, and Payer Platform customers.

Perioperative Clinician Advisory Council (PCAC)

PCAC contains separate anesthesia and surgical tracks. Both tracks focus on sharing best practices and innovative ideas as organizations work to improve patient outcomes, maintain high standards in patient satisfaction, improve efficiency in OR, and achieve financial goals. Collaborate with fellow providers from organizations across the Epic community on industry topics, preview upcoming development, and provide your feedback.

Designed for surgeons, anesthesiologist, perioperative nurses, CRNAs, OR managers, and other clinical users from OpTime and Anesthesia customers.

Pharmacy Advisory Council (PharmAC)

PharmAC brings together pharmacy leaders to exchange ideas, discuss the clinical impacts of operational decision-making strategy, and contribute to the continued development of the Willow Pharmacy System. The event includes user presentations, design discussions, and previews of new Willow features for inpatient, ambulatory, inventory, and specialty pharmacy settings.

Designed for Willow Pharmacy customers.

Physicians Advisory Council (PAC)

PAC brings together physician leaders from the Epic community to exchange practical knowledge unique to the Epic physician experience. Learn from user presentations on strategic and leadership topics, participate in breakout discussions, and get previews of upcoming functionality.

Physicians and advanced practice clinicians only. Designed for EpicCare Clinical System (Inpatient, Ambulatory, ASAP) physicians.

Project Managers Advisory Council (PMAC)

PMAC provides a venue for sharing project successes and discussing common challenges with your project management peers. This council includes customer presentations and an environment for networking with your colleagues from other organizations.

Designed for project managers.

Regulatory Programs and Quality Measurement Advisory Council (RPQM)

The RPQM AC provides an opportunity for organizations using EpicCare to interact, exchange ideas, and hear presentations on how to succeed with the 21st Century Cures Act, Promoting Interoperability, the Quality Payment Program, and related quality measure programs. Join others leading or involved in the regulatory and quality measurement efforts at their organizations.

Designed for regulatory and quality experts, project managers, directors, and clinician leadership working on regulatory and quality initiative.
